“ We were all so sorry to hear of Lori's death but happy to know that she is now in the arms of her Lord and Saviour, Jesus Christ. We fondly remember that little tomboy, who lived next door. Although Lori was 4 years older than Kris, our daughter always wanted to do everything Lori did, including hanging upside down from tree branches. Unfortunately, Kris was not always successful in her attempts.

Our hearts and prayers go out to the family-Millie, Judy [hard to believe that Corey is a grown woman now!],Debbie and Mike. May the Lord of the broken-hearted bring healing to you all.

“ Our thoughts & prayers are with your family. Your mom was always a great neighbor and we will miss her. She was a very strong woman determined to not let the disease get her down. I particularly remember her this past summer having her chemo but in the very hot sun out mowing her lawn and when we asked to help her she said she could do it herself. Again our prayers are with all of you.

“ Amber, Kyle & Mallory, I'm so sorry for the hurt you feel in the loss of your mom. We became instant friends in the 6th grade and my memories of our friendship will never fade. She introduced me to peanut butter on an English muffin and I think about that every time I eat one. Every time I hear a Joan Jett, Kenny Rogers or a Muppets song, I think of her. (We had a wide variety of music that we listened to in her room!) Her Guinea Pigs and the enormous habit trail she had for them made me fall in love with those critters and I bought them for my daughter when she was young. She also coaxed me into doing my first flip off the high dive at Willowood, which literally took hours, and then resulted in a full-on belly flop, that really hurt! :) Your mother was a kind, loyal, loving friend who would fill me in on her children and grandchildren every year at the Etown Fair. She was proud of you and loved you all dearly. I'm so thankful for the time we spent together over the past 6 months and I'll treasure those conversations we had about family, friendship and life. I will miss my friend, but I'm so very grateful to have known her and had her in my life. -Beth (Rabuck) Graham

“ My heart is breaking - I didn't know my oldest friend was even sick. I've lived in Idaho since 1997 and we lost track of each other the last few years. That being said, I would be hard pressed to find a single childhood memory without Lori in it. She was like my big sister and I wanted to do everything she did!! I couldn't begin to speak of everything we did together - all those years. Riding bike, sledding at Old Smokey, pet parades, ice skating, snow forts, basketball - the list is never ending. Trying to wear matching outfits to Bible School, Nanny on the High Hill and Nanny in town, sneaking into Mike's room when he wasn't home to watch MTV when it first came out, wearing Kmart bags on our heads when it was raining while waiting for the bus because we were way too cool for umbrellas, getting our guinea pigs together to play and then being shocked when mine had babies . Then as we got older, night after night of her sitting on her garage roof and me at my window talking about everything and anything. After she and her friends got drivers license going to school with them in the morning and getting to walk through the High school to get to middle school. This was a big deal - my friends were so jealous! Going to her first doctor's appointment when she was pregnant with Amber, introducing her to the man I would marry, seeing Amber and Kyle in all of their Halloween outfits - I never met you Mallory but your mom sent me pictures. She loved you all so much. I am so sorry that we lost touch and that I didn't know what she was going through but I was so, so happy to read that she accepted Jesus. We need to remember that God didn't create us for time but for eternity and I know we will be reunited in Heaven. My love and prayers go out to all of her family and friends. She will forever be in my heart.

“ I only got to know your sister, mother, grandmother, aunt, daughter, friend--Lori, in the past year as we walked the cancer journey together. I will always remember her bright smile and her love of her children and grandchildren. I'll remember meeting Damian as he spent time with grandma at Susquehanna Days. My heart was captured by watching Lori and Brynn playing peekaboo with a sheet and a chair at the hospice center last week. My heart is so glad that Lori put her trust in Jesus as she walked through the difficulty of the past couple weeks and I can rest assured that I will see her again in Heaven where we both will no longer have pain, chemo treatments or hair loss because we will be in the presence of our LORD, the Healer. I'm praying for all of you that are missing Lori's presence today.
