“ I feel so fortunate to have spent many years knowing this pillar of a man. A book by American journalist Tom Brokaw talked about the Greatest Generation ... Brokaw wrote that these men and women fought not for fame or recognition, but because it was the "right thing to. I wasn't military but working with guys like Don you get an idea of the characteristics of their greatness. I first met Don As a young 20 yr old .I also admired how he would spend the quality of things in life summer vacation in a college dorm and attending classes. He would sponsor foreign Summer guests. His wit and sharp mind was one of a kind. He had an in-depth knowledge of instrumentation. He was also a go to anytime . to discuss life experiences or if I was traveling on vacation. Don was the person you learned from. Often times the production guys would say ; , ""we need you to get Einstein here he fixed it last time."" I'm thankful that I had the opportunity to know Don and work with such greatness. Pete Scherer

“ So very sorry to hear about Don's passing. His technical knowledge was a great help on many projects in the Floor Plant. He was always ready to assist and provide appropriate suggestions from a practical point of view. I was fortunate to know him and to have the opportunity to work with him.
