“ Howard and Jane were the first folks to welcome us when we moved to Mount Joy. They were generous and kind friends, and we stayed friends with Howard after Jane's death. Howard loved to read good books and so enjoyed seeing our two dogs when we visited him at Pleasant View. A life well lived Howard, we will miss you!

“ Please accept my sympathy for Howard's passing. I worked with him when I was an engineering technician at Grinnell. If I'm not mistaken, he was also at Pennsylvania Malleable Iron when I was there. He was a very intelligent and interesting man who took time to speak with me often. He respected me for being one of the very few women in the foundry industry back in the 1970s and 1980s. I'm sure you will miss him. My prayers are with you.
