“ Hold tight to memories for comfort, lean on your friends and family for strength, and always remember how much you are loved. Matt you touched my heart when I first met you. Always smiling cracking wise jokes non stop. I think I've actually heard them all. Multiple times and they got funnier every time you told them. Matt I will miss you. Truly. I hope you find peace in heaven brother. Smoke a loaded cigarette for me when you get were you're going. I know you always joked about that. Rest easy big man I'm gonna miss you. My condolences to your family. We lost a great man. Thank you for everything you've taught me and shown me on how to be the person I'm trying to be. Love you and I'll see you when I see you.

“ Matt, I'm going to miss you. I know things in life changed in the last two years with me moving out of the area, but we had a some good times racing slot cars upstairs above my garage. You loved building cars and were a good racer even though you would complain about rules! You had a love for music and playing drums. You always talked about how much you loved your grandkids. We can't forget Shelby. You loved her so much and she was a part of your family. R.I.P.
